**DataBase:**

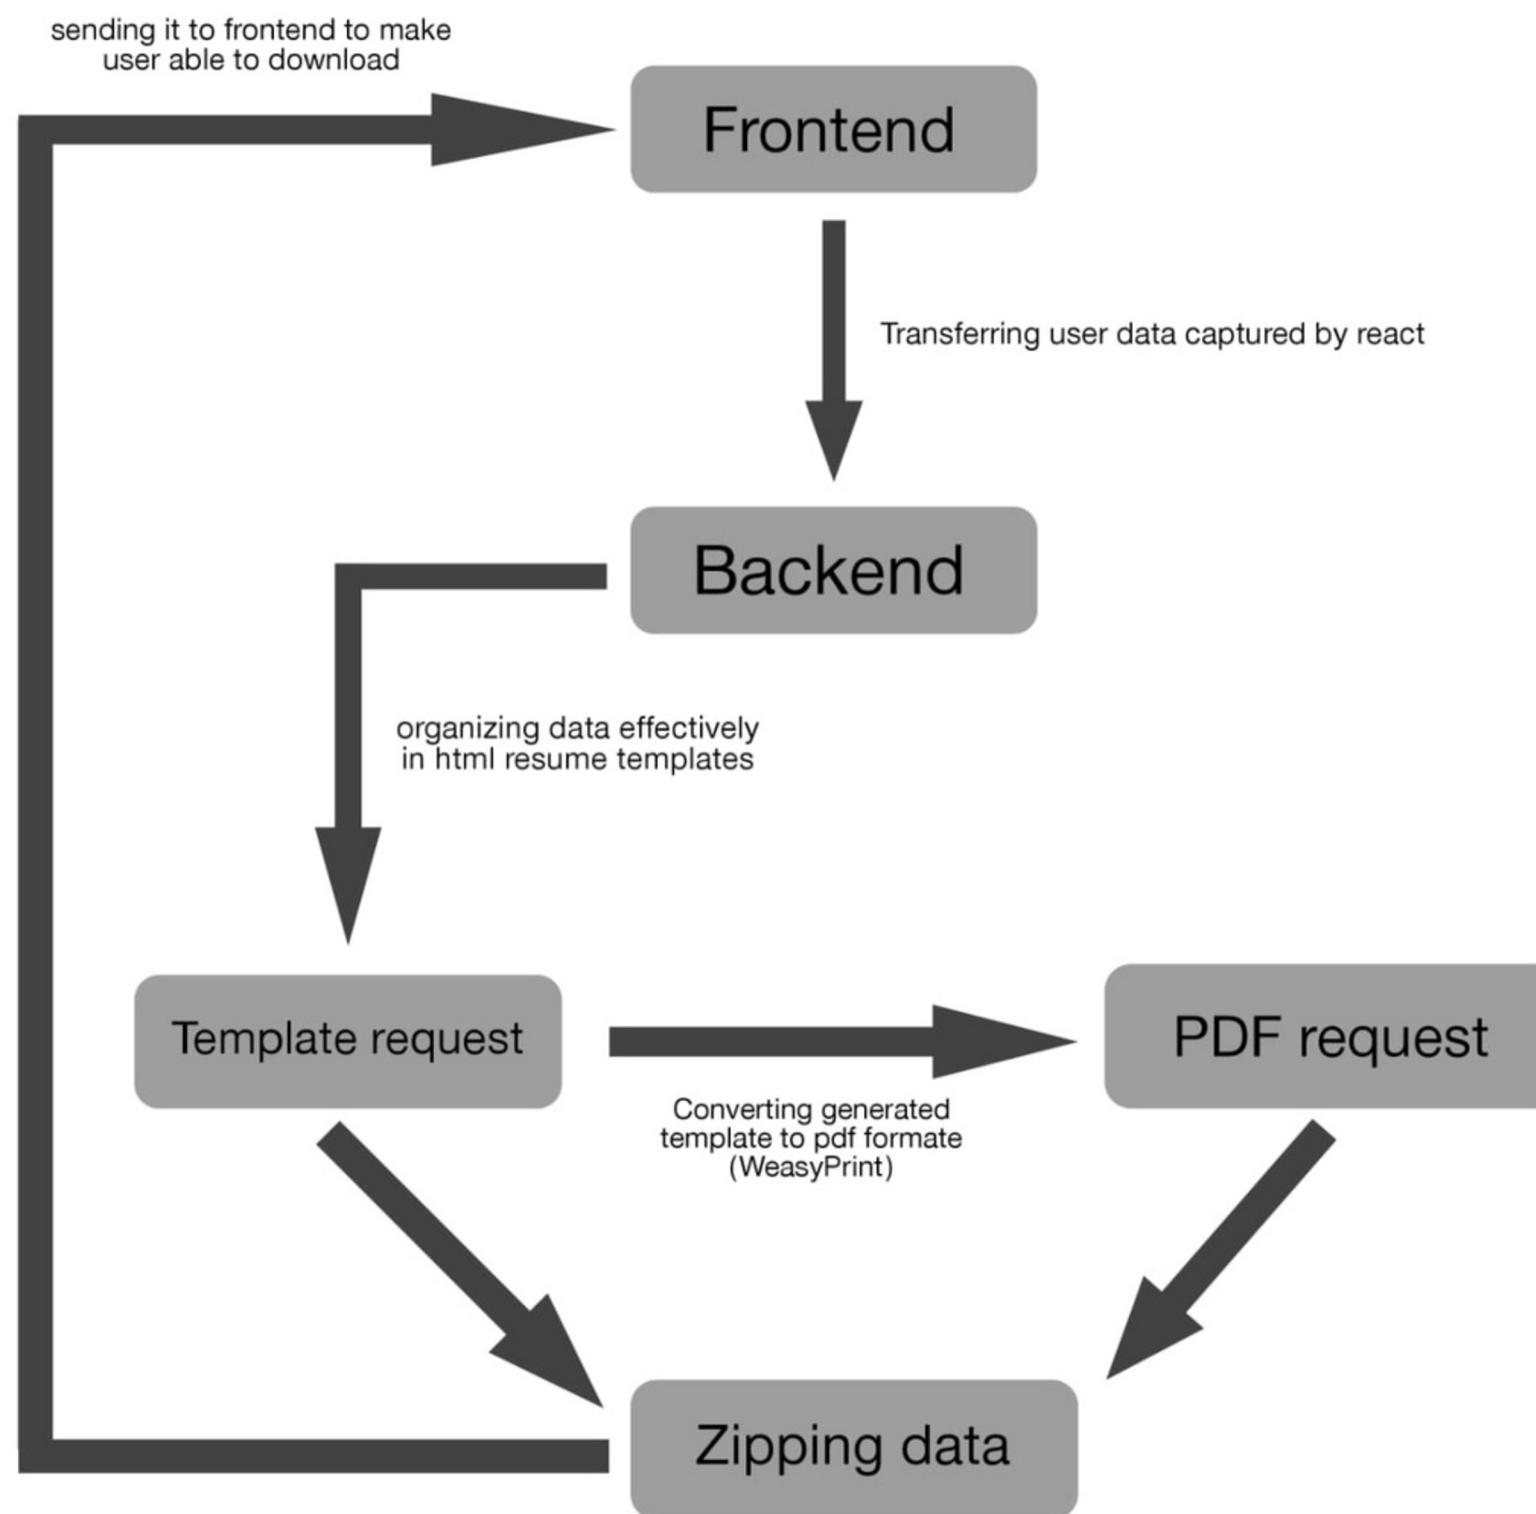

**Firebase**

# FEATURES & FUNCTIONALITIES

- An assistant bot is assigned to each user to guide them through every step of the detail entry process
- Smart suggestions on every input which save time and prevent errors, enhancing your ATS score.
- Other builders generate LaTeX-based resumes that are hard to update and understand by user. We offer clean & updatable HTML/CSS formats for easy customization and deployable in browser.
- You just have to enter details once after that, simply upload your saved JSON to instantly redesign your resume anytime, based on future needs.

# SYSTEM ARCHITECTURE

Generated Resumes
